Harald,

I am writing you, and cc.ing the architects for the residence we are currently constructing, because of a conversation I had on site with the owners a week ago. We were discussing the master bath ceiling and segued to the other bath ceilings and materials. I made mention of your products, both coatings and board. I am hoping you could reach out to Steve and Susan with information on Redstone products. They may or may not consider this right for our current project, but may be able to keep it in mind for future use. **As you know, I think your Redstone board and finishes are great, I am quite pleased with their performance in my own baths.**

Regards,

Gil Bliss
