April 26, 2012

Dear Armin,

I just wanted to drop you a quick note to thank you for introducing us to the Redstone-LUNO air filtration paint and the redstone WOS – Anti Condensation Coating. These products which were installed in one of our guest room suites improved the air quality tremendously and the excessive humidity as well as the associated musty smell is gone.

Thanks again for the assistance your firm provided during the entire installation process. I look forward to getting back with you as soon as we determine a timetable for treating the balance of our rooms.

Best regards,

John Naylor, CHA  
General Manager
